Certificate of REACH Compliance Laser Driven Light Source Product Line

The aim of REACH is to improve the protection of human health and the environment through earlier and more substantial identification procedures of the properties of chemical substances.

According to the Article 33 (1) of REACH, the suppliers are obliged to communicate information on substances in their products. Substances of Very High Concern (SVHC) – Annex XIV As of January 17, 2023 - <http://echa.europa.eu/candidate-list-table> - ECHA (The European Chemicals Agency) has placed 9 new substances in the Candidate List of Substances of Very High Concern (SVHC) for authorization. Annex XVII to REACH introduced some new restrictions, it primarily replaced a number of European Union directives by consolidating existing restrictions, including those that had been implemented as amendments to Directive 76/769/EEC.

After a review of the REACH requirements, our supplier documentation, and our internal Engineering documentation it has been determined, our products are REACH compliant. They do not contain any of the SVHC substances above the 0.1% by weight threshold as defined by REACH, (EC) 1907/2006 including articles identified in REACH Annex XIV and REACH Annex XVII. Energetiq Technologies is actively working with its suppliers to ensure they are aware of the Directive and its most recent revisions to the restricted list.

Karen L. Tichenor, Ph.D.
Vice President, Quality and Environmental Compliance
